## OUR FOUNDER

LATE SHRI. C. KOSHY

## ABOUT US

Koshys Institute of Health Sciences was established in 2003 by Mr. C Koshy, a great visionary who had a strong vision to contribute towards the development of the society. Currently, this institution is one among the top health care educational institutions dedicated to prepare exemplary health care professionals. We always focus on high quality education which is planned and implemented in a systematic manner to meet health care demands across the globe.

## ABOUT IGNITE 2024

Hemodynamic monitoring is a fundamental aspect of modern healthcare, playing crucial role in the assessment and management of patients in clinical settings, including critical care, cardiology, and anaesthesia. To address the growing demand for expertise in this field, KIHS proudly presents a comprehensive workshop on Hemodynamic Horizons for Critical Care Excellence, designed for healthcare professionals who seek to enhance their knowledge and practical skills in this vital area of patient care.

## WORKSHOP HIGHLIGHTS

Basics of Hemodynamic Monitoring

## AIM

To enhance the knowledge and practical skills of healthcare professionals in the field of Hemodynamic Monitoring, enabling them to provide effective care to patients with critical care needs.
